MULTI CYLINDERS CONE CRUSHER

INTRODUCTION

Multi-cylinder hydraulic Cone Crusher is a world-level cone crusher introduced. This series cone crusher not only improves the production capacity and crushing efficiency, but also widens applying area, hardness range of materials from limestone to basalt.

ADVANTAGES

1. High efficiency: The cone crusher machine adopts the optimized structure of fixed main shaft and small spherical shaft, which is 5% ~ 15% higher than the efficiency of the old spring cone crusher for sale;
2. Large production capacity: The hp cone crusher is designed with a perfect combination of crushing stroke, crushing speed and crushing chamber shape, so that the output of this machine is 35% ~ 60% higher than that of the old spring cone crusher under the same crushing cone size.
3. High-quality aggregate: The crusher cone adopts the unique lamination crushing principle to produce the crushing effect between different aggregates, so that the proportion of cubes in the finished product is significantly increased, the needle-shaped stones are reduced, and the particle size is more uniform.
4. More stable operation: When there are hard objects such as iron blocks that cannot be broken into the cone crusher liner, the over-iron protection device will automatically release it and then reset it immediately.
5. Multi-point split hydraulic lubrication control system can ensure double protection of bearing lubrication and overload protection of the machine.

TECHNICAL DATA

Multi Cylinders Cone Crusher

Model	Cavity	Feeding Opening (mm)	Minimum discharge opening(mm)	Capacity(t/h)	Installed Power(kW)	Dimensions (mm)
HPT100	Extra Coarse	140	19	75-140	90	1705×1510×1583
	Coarse	100	13	60-110		
	Medium	70	9	52-100		
	Fine	50	9	50-95		
	Extra Fine	20	6	45-90		
HPT200	Coarse	185	19	145-250	160	2135×1750×1927
	Medium	125	16	135-235		
	Fine	95	13	115-220		
	Extra Fine	75	10	90-190		
HPT300	Extra Coarse	230	25	220-440	220	2725×2110×2871
	Coarse	210	19	190-380		
	Medium	150	16	175-320		
	Fine	105	13	145-280		
	Extra Fine	80	10	110-240		
HPT400	Extra Coarse	295	30	300-630	315	2775×2370×2295
	Coarse	251	25	285-560		
	Medium	196	20	250-490		
	Fine	110	13	180-345		
	Extra Fine	90	10	135-320		
HPT500	Extra Coarse	330	38	425-790	400	2800×3480×4050
	Coarse	290	30	370-700		
	Medium	210	22	330-605		
	Fine	135	16	270-535		
	Extra Fine	95	13	220-430

WHY CHOOSE HAMAC?

HAMAC Automation Equipment Co., Ltd is a professional supplier for construction machinery located in Zhengzhou and Qingdao, China. Based on the two manufacture bases, HAMAC's Parent company occupies big market in domestic market, and built agents and distributors in China mainland. HAMAC is treated as an international brand to promote the overseas market. We are becoming a famous global brand in construction machinery industry.

HAMAC owns a strict quality control system to select our suppliers, to check all the products from HAMAC also; HAMAC does not pursue a high profit, but with reasonable profits to cover basic cost and to confirm the quality; HAMAC provides our clients with professional exporting service in addition to products, to make your purchase experience satisfied.

TO BE YOUR DEVOTED PARTNER
